7. Statement on Comparability of Information in Financial Statements

The figures in the Financial Statements of this period are comparable with the figures in the Financial Statements of the previous period.

At the time of preparing the Financial Statements, the Company re-evaluated the balance of receivables originating in foreign currencies at the foreign currency buying rate of the commercial bank where the enterprise regularly conducts transactions.

The Company has made provisions for overdue receivables in accordance with Circular 48/2019/TT-BTC dated August 8, 2019 of the Ministry of Finance and the accounting regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance.

5. Principles of inventory recognition

The Company's inventories are assets purchased for production or sale in the normal course of business, including: Raw materials, materials; Tools, instruments; Finished products; Goods; Goods on consignment.

- **Principles of inventory recognition:** Inventories are initially recorded at original cost including: Purchase costs, processing costs and other directly related costs incurred to bring the inventories to their location and condition at the time of initial recording. After initial recording, at the time of preparing the Financial Statement, if the net realizable value of the inventory is lower than the original cost of the inventory, it is recorded at the net realizable value.

The value of inventories is determined by the weighted average method.

- **Method of inventory accounting:** Regular declaration method.

Method of determining the value of unfinished products at the end of the period: The cost of unfinished production and business is collected according to the cost of direct materials for each type of unfinished product.

- **Method of establishing inventory price reduction provision:**

The company's inventory price reduction provision is established according to current accounting regulations. Accordingly, the company is allowed to establish a provision for inventory price reduction for obsolete, damaged, and poor quality inventory and in the case where the original price of the inventory is higher than the net realizable value at the date of preparing the Financial Statement.

6. Principles of recording and depreciating fixed assets

6.1 Principles of recognition and depreciation methods of tangible fixed assets

Tangible fixed assets are recorded at original cost, reflected on the Balance Sheet according to the indicators of original cost, accumulated depreciation and remaining value.

- The recording of tangible fixed assets and depreciation of fixed assets are implemented in accordance with Vietnamese Accounting Standard No. 03 - Tangible fixed assets, Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance guiding the enterprise accounting regime and Circular No. 45/2013/TT - BTC dated April 25, 2013 guiding the regime of management, use and depreciation of fixed assets.

- The Company applies the straight-line depreciation method for tangible fixed assets. Tangible fixed asset accounting is classified according to groups of assets with the same nature and purpose of use in the company's production and business activities, including:

Type of fixed asset	Depreciation period (years)
Buildings and structures	05 - 25
Machinery and equipment	03 - 15
Means of transport, transmission equipment	06 - 15
Equipment, management tools	03 - 10
Other assets	04 - 15

In accordance with the direction of the Deputy Prime Minister, Official Dispatch No. 1001/BTC-TCVN dated September 15, 2017 of the Ministry of Finance and Official Dispatch No. 1757/ICVN-TCKT dated September 21, 2017 of the Vietnam Chemical Group on adjusting the depreciation rate of fixed assets, accordingly, the Company will implement depreciation of fixed assets as follows: In 2017, 60% will be deducted, in 2018, 60% will be deducted, in 2019 ... 2018 deducted 70%, 2019 deducted 80% of the annual contribution amount by the straight-line method (corresponding to the depreciation reduction in 2017 being 40%, 2018 being 30% and 2019 being 20% of the annual deduction amount by the straight-line method). The depreciation reduction amount in the above 3 years is allocated equally by the Company over the remaining depreciation period of the fixed assets

6.2 Principles of recording intangible asset depreciation method

The Company's intangible fixed assets are Accounting Software.

The recording of intangible fixed assets and depreciation of fixed assets are implemented in accordance with Vietnamese Accounting Standard No. 04 - Intangible fixed assets, Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance guiding the enterprise accounting regime and Circular No. 45/2013/TT - BTC dated April 25, 2013 guiding the management, use and depreciation regime of fixed assets.

Intangible fixed assets are recorded at original cost, reflected on the Balance Sheet according to the indicators of original cost, accumulated depreciation and residual value

The Company applies the straight-line depreciation method for intangible fixed assets. Accounting for intangible fixed assets is classified according to groups of assets with the same nature and purpose of use in the Company's production and business activities, including:

Type of fixed assets	Depreciation period (Years)
Computer software	06

7. Principles of accounting for prepaid expenses

Expenses incurred in relation to the results of production and business activities of many accounting periods are recorded as prepaid expenses to be gradually allocated to the results of business activities in the following accounting periods.

Short-term prepaid expenses are the costs of transportation, loading and unloading DAP, fire insurance costs, car rental costs and other costs of tools and equipment, regular repairs that are allocated for no more than 12 months. Particularly for transportation, loading and unloading costs of DAP, they are allocated to expenses according to the quantity of DAP products sold each month.

Trade discount payable is the amount that the selling enterprise reduces the listed price for customers who buy goods in large quantities.

Sales discount is a deduction for buyers due to poor quality, degraded products or goods that do not meet the specifications specified in the economic contract.

Sales revenue deductions and service provision deductions arising in the period are trade discounts. Trade discounts arising in the same period of consumption of products, goods and services are adjusted to reduce the revenue of the arising period. In the case of products, goods and services that have been consumed in previous periods and only arise in the following period, the revenue deductions are recorded according to the following principles: If they arise before the issuance of the Financial Statements, the revenue is recorded as a reduction on the Financial Statements of the reporting period (previous period), and if they arise after the issuance of the Financial Statements, the revenue of the arising period (next period) is recorded as a reduction.

16. Principles of accounting for cost of goods sold

Cost of goods sold is recorded and aggregated according to the value and quantity of finished products, goods, and materials sold to customers, consistent with the revenue recorded in the period and ensuring compliance with the principle of prudence. Cases of material and goods loss exceeding the norm, costs exceeding the normal norm, lost inventory after deducting the responsibility of the relevant collective or individual... are fully and promptly recorded in the cost of goods sold in the period.

17. Principles of accounting for financial expenses

Expenses recorded in financial expenses during the period include: Borrowing costs, provision for investment losses in other entities; payment discounts; losses arising from selling foreign currencies, exchange rate losses, etc.

Financial expenses recorded in the Income Statement are the total financial expenses incurred during the period, not offset against financial revenue.

18. Principles and methods of recording current corporate income tax expenses and deferred corporate income tax expenses.

Current corporate income tax expenses are determined based on taxable income and corporate income tax rates in the current year.

Current corporate income tax rate is 20%

19. Other accounting principles and methods

19.1 Principles of recording construction in progress

The Company's construction in progress is the cost of investment in technology for producing phosphoric acid and MAP fertilizer, the line for recovering residual P2O5 in gypsum, the cost of renovating the administrative building and the cost of repairing machinery, which are recorded at cost. These costs include service costs and related interest costs in accordance with the Company's accounting policy. Depreciation of these assets is applied in the same way as other assets, starting when the assets are ready for use.

19.2 Tax obligations

Value Added Tax (VAT)

The Company applies the declaration and calculation of VAT according to the guidance of current tax law with a tax rate of 10% applied to the revenue from the sale of electricity, acid, and wharf fees (the application of VAT reduction is implemented according to current regulations); a tax rate of 5% for revenue from the sale of water, a tax rate of 0% for export revenue, and fertilizer revenue not subject to VAT.

Corporate income tax

The Company applies a corporate income tax rate of 10% on taxable profits for 15 years from 2009 to 2023; From 2024, the Company applies the prescribed corporate income tax rate of 20%.

The Company is exempted from corporate income tax for 04 (four) years from 2010 to the end of 2013, and has a 50% reduction in the tax payable for the next 09 (nine) years from 2014 to the end of 2022 according to the content of Official Dispatch No. 1145/CT-TT&HT dated August 6, 2013 of the Hai Phong City Tax Department

Other taxes

Other taxes and fees must be declared and paid by the enterprise to the local tax authority in accordance with current regulations of the State.

3. Department report

Segment information is presented by geographical segment of the Company. The primary report, geographical segments, is based on the Company's internal reporting and management structure.

Segment reporting includes items directly attributable to a segment as well as items allocated to segments on a reasonable basis.

Items that are not allocated on a reasonable basis include assets, liabilities, finance income, finance expenses, selling expenses, general and administrative expenses, other profit or loss and income tax

When presenting segment information by geographical segment, segment revenue is based on the geographical location of customers in Vietnam ("domestic") or in countries other than Vietnam ("export").

4 Financial Instruments

Capital Risk Management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimisation of the debt and equity balance.

Financial Leverage Ratio

The Company's financial leverage ratio at the end of the accounting period is as follows:

<i>Financial liabilities</i>	31/12/2024 VND	01/10/2024 VND
Borrowings	-	-
Minus: Cash and Cash Equivalents	30.831.262.123	18.792.138.486

Total	304.904.457.067	210.549.833.244

The Company has not assessed the fair value of financial assets and financial liabilities at the balance sheet date because Circular No. 210/2009/TT-BTC dated November 6, 2009 and current regulations do not provide specific guidance on determining the fair value of financial assets and financial liabilities. Circular 210 requires the application of International Financial Reporting Standards on the presentation of financial statements and disclosure of information for financial instruments but does not provide equivalent guidance for the measurement and recognition of financial instruments, including the application of fair value, in order to comply with International Financial Reporting Standards.

Financial Risk Management Objectives

The Company has established a risk management system to identify and assess the risks to which the Company is exposed, and to establish policies and procedures to control risks at an acceptable level. The risk management system is reviewed periodically to reflect changes in market conditions and the Company's operations.

Financial risks include market risk (including exchange rate risk, interest rate risk and price risk), credit risk and liquidity risk.

Market Risk

The Company does not hedge these risks after the Board of Directors has assessed that the cost of hedging exchange rate risk or interest rate risk may be higher than the cost arising from market risk if there is a change in the exchange rate of these financial instruments in the future.

Exchange rate risk management

The Company conducts a number of transactions denominated in foreign currencies, accordingly, the Company will bear the risk of fluctuations in exchange rates

Interest rate risk management

The Company bears interest rate risk arising from the signed interest-bearing loans. This risk will be managed by the Company by maintaining a reasonable level of loans and analyzing the competitive situation in the market to obtain favorable interest rates for the Company from appropriate lending sources.

Price risk management

The Company bears the price risk of equity instruments arising from investments in equity instruments. Investments in equity instruments are held for long-term strategic purposes rather than for trading purposes. The Company has no intention of selling these investments.

Credit Risk

Credit risk occurs when a customer or counterparty fails to meet its contractual obligations, resulting in a financial loss to the Company. The Company has a credit policy in place and regularly monitors the situation to assess whether the Company is exposed to credit risk.

Liquidity Risk Management

The purpose of liquidity risk management is to ensure that there are sufficient funds to meet current and future financial obligations. Liquidity is also managed by the Company to ensure that the excess of liabilities due over assets due during the year is at a manageable level relative to the amount of funds the Company believes can be generated during the year. The Company's policy is to regularly monitor current and expected future liquidity requirements to ensure that the Company maintains adequate reserves of cash, borrowings and capital committed by its owners to meet its short-term and longer-term liquidity requirements.

The table below details the remaining contractual maturities for non-derivative financial liabilities and their agreed repayment terms. The table is presented based on the undiscounted cash flows of financial liabilities based on the earliest date the Company can be required to pay. The table presents cash flows of principal and interest. The contractual maturity dates are based on the earliest date the Company can be required to pay.

The Company assesses the concentration of liquidity risk at a low level. The General Director believes that the Company will be able to generate funds to meet its financial obligations as and when they fall due.

The following table details the maturity of non-derivative financial assets. The table has been prepared based on the undiscounted contractual maturity of the financial assets including interest that will be earned on those assets (if any). The disclosure of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as liquidity is managed on a net asset and liability basis.
